  *A comprehensive, curriculum-oriented overview of a broad range of scientific disciplines in a variety of useful formats.*
* Science Reference Center

## Students & Homework
* Kids Search
* Searchasaurus
* Student Research Center
* World Book Kids

## ALL THE INFORMATION YOU NEED TO SUCCEED

**Resources for All:** The Ohio Web Library is a core collection of 86 online databases available to all Ohio residents. A library database is an electronic catalog or index to information resources and publications such as abstracts and articles from magazines, journals, and newspapers. Databases may also include books, encyclopedias, practice tests and tutorials, and audio, video, image collections and more.

The Ohio Web Library is provided by **Libraries Connect Ohio** (LCO), which is composed of four major Ohio library networks — OPLIN, OhioLINK, INFOhio, and the State Library of Ohio. LCO can cooperatively purchase access to these statewide resources at a cost-effective rate whereas most individual libraries would not be able to afford them on their own.

The Ohio Web Library is funded by a federal IMLS Library Services and Technology Act (LSTA) grant through the State Library of Ohio, which provides about $1.6 million per year. The three LCO library networks — OPLIN, OhioLINK, and INFOhio — provide an additional $2.6 million in state funds each year from their budgets.
